

**Marysville Borough Finance Committee**  
**February 5, 2007**  
**7:00AM**  
**MINUTES**

1. Cost share with Duncannon for video camera for sewer system.

*I have not heard anything yet from Dan Rapp regarding what type of camera they are considering purchasing. Ann made a recommendation to check with the West Shore Council of Governments regarding a joint purchase with another municipality.*

2. Police Cell Phone Plan.

*Committee agreed that a separate plan for the police is not necessary. The bill will be sent to the borough office and the mayor will review the calls made, should it be necessary. I will prepare a letter to the Police Department regarding this.*

3. Drug and Alcohol Testing

*The borough will continue to use Choice Point for drug and alcohol testing since the \$275 administrative fee was already paid. Next year we will switch to the West Shore Council of Governments since there is no administrative fee.*

4. Estimate for Repairs to Truck 7.

The committee agreed that truck 7 should not be repaired due to the price of the repairs. John Edkin will determine a reserve price and the truck and plow will be advertised with a reserve price.

5. Kings Highway Storm Sewer Quote.

*Committee recommended waiting until closer to Spring to install additional catch basins along Kings Highway. I will also get additional piping quotes from Carter's and price landscape timbers for reinforcing the bank. The estimated cost of the work will be \$5,000.*

6. New Computer

*Committee agreed to price, and possibly purchase a new computer for the Manager's office. The computer currently used will be sent to the wastewater plant for Jim William's to use.*

**Next Meeting Thursday, March 8, 2007 @ 7:00 am**
