

**Marysville Borough Sewer & Sanitation Committee**  
**October 6th, 2011**  
**8:00 AM**  
**Minutes**

**Chair: Roger Barrick**

**Members: Ann Simonetti**

**1. List of Sewer Plant issues**

- |                          |                                    |
|--------------------------|------------------------------------|
| • Head works             | Scheduling work                    |
| • Tideflex Valves        | \$10,000.00 each plus installation |
| #1 lift station          | Reline pipe (two quotes received)  |
| • Distribution Box       | Needs completed                    |
| • Mud Valve              |                                    |
| • Exhaust Manifold Leaks |                                    |

Scott reported that PSI is scheduled to come in and start the work, contract has been signed. Scott reported that he received the third quote today and will put together the results for next committee meeting.

**2. The lower interceptor will need cleaned as soon as it dry's out.**

This is information only

**3. Keith Latimer - Reduce rate**

Keith addressed the committee asking for a rate reduction due to his business being flooded out and it's going to be three more months before he can reopen. The Committee granted a 50% reduction in rate.

**4. Grinder Pump**

(sent out our spare to be fixed, my opinion we need two spare )

The committee approved to take this to the full council to purchase a second spare grinder pump.

**Next Meeting Thursday, November 10th, 2011 @ 8:00 am**
