

**Marysville Borough Sewer & Sanitation Committee**  
**November 3, 2014**  
**5:45 PM**  
**Minutes**

**Chair: Steve Copp    Members: Allen Metzger, Larry Little**

**Operators: Lonnie Sarver, Darrel Binkley**

**1 Sludge Pump**

Scott would like to purchase a new sludge pump for the treatment plant. Scott told the committee the borough borrows pumps from others when one needs to be sent out for repair. Scott suggested repairing the old one to have as a spare. The committee agreed to place the sludge pump purchase and repair on the on the borough council agenda for approval.

**2. Time to Think About Next Project**

There was discussion regarding the next sewer separation project. The committee thinks we need to start the engineering process.

**3. Pump Station #1**

Scott gave an update to the committee on what the crew is working on at the pump station. Scott will have a report with results for the December 2, 2014 meeting.

**4. Smoke Testing**

Scott informed the committee letters were sent out to residences needing to remove their rain spouts, sump pumps, and replace sewer caps. A second letter was mailed to those who didn't comply. There are only five residents that haven't complied.

**Next Meeting Monday December 2nd, 2014**
