

**Marysville Borough Sewer & Sanitation Committee**  
**April 6, 2015**  
**5:45 PM**  
**Minutes**

**Chair: Steve Copp    Members: Allen Metzger, Larry Little**

**1 Pump Station #1**

**(Fixed electric issue, smoke test found and fixed issues)**

Scott reported that everything seems to be working well at the pump station at this time. Scott said that the operators do not want to rule out moving forward in the future with the proper sized pumps.

**2. Water Consumption Billing**

Scott reported that Connie has complete much of the work but was not ready to roll it out to the committee as of this meeting.

**3. Maintenance Agreement for Pumps (Envirep TLC)**

After some discussion the committee approved to place this item on the council agenda.

**4. Valve Replacement (info only)**

Scott reported that the valve that was replaced two years ago has already failed and needs repaired or replaced. The plant operators are working to change to a different valve and connections. Scott will report next month on the success of this valve replacement.

Scott reported that the class he is taking is winding down and only a month to go until completed. The class is going well and there is a lot of information to being a operator. Next state test in the second week of May.

**Next Meeting Monday May 4, 2015**
