

Marysville Borough Sewer & Sanitation Committee
April 8th, 2014
5:45 PM
Minutes

Chair: Steve Copp Members: Allen Metzger, Larry Little

Operators: Lonnie Sarver, Darrel Binkley

1. Punch List Sewer Project

Scott informed the committee that he and Greg Rogalski drove the construction area and listed the concerns. The committee members discussed the list of concerns with the construction area and gave their feedback. Greg is to contact Wexcon to have the list addressed. Scott will give feedback at the next committee meeting.

2. 2 Pumps to 1 Pump (water supply for press belt)

Scott provided information on this line item and is waiting on a quote.

3. Time to Think About Next Project

The committee discussed what they need to do to get ready for the next and final stage of the sewer separation project. Scott stated that he had talked to Greg about our next steps. There may be grants coming available for the final sewer project. Projects need to be shovel ready when applying for grants. The committee would like to move forward and have Pennoni Associates give a quote for the cost of engineering for the next phase of the sewer separation project.

4. Influent Pump Rebuild (\$1363.35)

Scott informed the committee the pump is running longer because of the worn part. This is costing the borough more in electricity. The committee approved to place this on the council agenda.

5. Direct Logic CPU (\$650)

Scott informed the committee that CPU is the back up for PLC to run the entire sewer plant. The last time this went out we had to run the plant in manual mode and the cost was around \$2,300. The committee agreed to place this line item on the council agenda for approval.

Next Meeting Tuesday May 6th, 2014
