

Marysville Borough Sewer & Sanitation Committee
May 5th, 2011
8:00 AM
Minutes

Chair: Roger Barrick

Members: Ann Simonetti, Marcus Hite

- 1. Interstate Waste Services Contract the same no 3%**
This is just for information only.

- 2. List of Sewer Plant issues**
 - Head works A & E Associates
 - Tideflex Valves \$10,000.00 each plus installation
 - #1 lift station Scott and Crew to look into this.
 - Distribution Box Being worked on now
 - Chemical Tanks Removing two
 - Mud Valve
 - Exhaust Manifold Leaks

Head Works cost sheet and quote. (Stone Gate Concepts)

The committee asked Scott to get two more quotes because of the cost would be \$28,495.00 to have this fixed correctly. Also the committee believes we need to move forward with this project and were hoping to coordinate this with the sewer separation project to help cover cost.

- 3. The lower interceptor will need cleaned this summer.**
Scott will get at least three quotes to have this done as low cost as possible.

- 4. Wesley United Methodist Church hook up to sewer by 12/31/11**
The committee asked to take this to full council.

- 5. Watch video of sewer main Marysville motors to pump station.**
Scott and Jim William will try and watch this before council meeting so Scott can report on it.

Roger and John had Scott take them a tour of the sewer plant so they would have a better understanding of the line items that we talk about. We also went to take a look at some manholes and sewer mains. Roger asked Scott to look into slip lining as a possible fix instead of digging the line up.

Next Meeting Thursday, June 9th, 2011 @ 8:00 am
