

Marysville Borough Sewer & Sanitation Committee
June 5th, 2013
7:00 AM
Minutes

Chair: Steve Copp Members: Ann Simonetti, Roger Barrick,

Operators: Lonnie Sarver, Darrel Binkley

1. Sewer Separation Project Update

(Greg Rogalski)

Scott reported for Greg, the project is winding down and the crews are working on small line item issues. They are also working on the punchlist that is a page and a half long. Mid to late June for the paving to begin.

2. Sludge Hauling Bid (advertising first week in May)

Info at this point

3. Chlorine Valve (\$1,020)

Some discussion that we have two valves and that it is recommended they get rebuilt every two years. So the committee agreed to budget the replacement of the second one next year and if that one is rebuildable to have that done and keep it as a spare.

4. Asset Management

After some discussion the committee agree to not go with the asset management due to we already have most of the information that was recommended.

5. Penn Works

The line item was place on the agenda at the request of Ann but Ann was not in attendance so there was no information.

6. Kings Highway

Scott reported that this project will happen during the summer due to being a wet area and that Wexcon move most of their equipment out for now. Wexcon is to inform Scott of the dates.

Next Meeting Tuesday, July 2nd, 2013 @ 7:00 AM
