

Marysville Borough Sewer & Sanitation Committee
August 4th, 2011
8:00 AM
Minutes

Chair: Roger Barrick

Members: Ann Simonetti, Marcus Hite

1. List of Sewer Plant issues

- Head works A & E Associates
- Tideflex Valves \$10,000.00 each plus installation
- #1 lift station Reline pipe
- Distribution Box Being worked on now
- Chemical Tanks Removing two
- Mud Valve
- Exhaust Manifold Leaks

2. The lower interceptor will need cleaned this summer.

3. Watch video of sewer main Marysville motors to pump station.
(awaiting quotes for lining the main)

4. George Vazquez is requesting:

1) Rehabilitation for blue building.

2) Requesting an adjustment to bill.

Borough received the status of occupancy/vacancy report on 7/22/2011. A resident has seven (7) days to give the borough the occupancy/vacancy report from the time it becomes vacant. In order to have a vacancy rate building needs to be emptied. Scott Weaver condemned building 4/27/2011. Please advise.

Scott it to call Dan about the billing, the committee believes that the rehabilitation rate should have started the day the water was shut off.

The committee asked Jim Williams to attend the meeting to communicate the past issues that drove Jim to leave and for ideas for improvements so we can solve the issues going forward.

Next Meeting Thursday, September 8th, 2011 @ 8:00 am
