

**Marysville Borough Sewer & Sanitation Committee**  
**September 5, 2012**  
**8:00 AM**  
**Minutes**

**Chair: Steve Copp    Members: Ann Simonetti, Roger Barrick,**

**Operators: Lonnie Sarver, Darrel Binkley**

Lonnie gave a list of items that were completed and are now operational  
(Decanter hose bib, Sump pump in round building, Easement clearing off S Main Street, Manhole along river was raised and added a bolt down lid)

**1. Sewer Separation Project Update**

Scott gave an overview of where the project is and where they should be going this week. Scott also told the committee that the job conference is Thursday at 10 AM. United Water will be in attendance to go over their plans and that we need to go past a couple more main lines and we want to work together so we do not have another water main issue. Scott also reported that the laser that Wexcon's crew lost in our sewer system finally showed up at the sewer plant. Problem is that the communter was chewing on the laser and now the communter is going to need repaired. This will be discussed at Thursday's meeting.

**2. 300 Block Kings Highway Pipe Damaged**

Scott reported that the engineers are working on the issue and preparing a bid package for bidding the project.

**3. Home Occupation / no customers go to house**

Scott is to have Connie print out this section and place it in the committee members' mailboxes.

**4. List of Equipment/Repair for Budget**
