

Marysville Borough Streets Committee
October 6, 2014
5:00PM
Minutes

Chair: Allen Metzger Members: Dave Magee, Lance Barthel

Maintenance Men: Robert Laman, Ken Miller

1. New Truck for 2015

Scott presented the quote information he received to date. The two quotes are very close and the possible determining factor would be delivery time. Steve asked Scott to get the delivery time frame from both bidders for the council meeting.

2. South Main Bridge

Discussion on when to place the concrete barriers along the parapets and do we want to rent them or purchase the barriers so after the project or replacement of the bridge that we can use them at the staging area to keep the different materials separated. Scott will look at the costs and report back.

3. US11&15 Improvement Package 11-7 / 11-A

Scott informed the committee of the recent changes on this project. The traffic will be open when they do the Duncannon mountain and they are looking to try to keep the road open when they do the Marysville mountain, but it's not looking good for that to happen. Just not enough room between the mountains through the cut. Scott will keep everyone updated.

4. Susquehanna Dead End

After some discussion on how to handle the area, Scott said that he would have his guys take pictures after every time they did the street sweeping, leaf removal and snow plowing.

5. Snow and Ice Removal Ordinance

There was much discussion on this subject from the committee. Scott presented what Upper Allen Township was going to adopt and our committee would like to move in that direction. First change would be to lower the snow amount from 6 inches to 3 inches for snow emergency routes. Scott will try to write up an amendment to our ordinance and have it ready for next month's meeting.

Next Meeting Monday November 5th, 2014
