

**Marysville Borough Streets Committee**  
**February 2, 2015**  
**5:00PM**  
**Minutes**

**Chair: Allen Metzger Members: Dave Magee, Lance Barthel**

**Maintenance Men: Robert Laman, Ken Miller**

**1. One Way Arrows at Intersection (Public Input)**

The committee wants to take a trip together around town at the one way streets to see if there is enough signage. If not enough to add signs and then consider the arrows painted at the intersections.

**2. South Main Bridge**

Scott reported that we should be receiving our bridge report within the next couple months. A long discussion followed with concerns about weight limits may be needed. Some concern was with the oil company having to go through town with all the heavy trucks.

**3. No Parking Both Sides on Susquehanna Street (residence request)**

The committee asked to send an invite to all residents on this street like we did for Ridgeview Drive to attend the next committee meeting. Scott will get with Connie to do so.

**4. Traffic Signal Possible Upgrade**

The committee looked at the proposal for the upgrade and the grant opportunity and decided this is not a path they are will to go.

**5. Advertise to Bid F250 (after we receive the new truck)**

For information only to the committee to remind them of the motion that was made when council approved the purchase of the new truck. The committee does have a reserve bid amount in mind.

**Next Meeting Monday, March 2, 2015**
