

Marysville Borough Streets Committee
March 6th, 2013
2:30PM
Minutes

Chair: Allen Metzger Members: Dave Magee, Lance Barthel

Maintenance Men: Robert Laman, Ken Miller

1. Ron Little and Kathy Torisky (Rohrer bus)

Ron and Kathy address the committee for the red light and if it would be possible to get the no turn on red in place. Ron had a copy of the law for that requirement and presented that to the committee. Dave had already contacted Mathew Clouse from the Signal Unit from Penn Dot to find out just what is needed to get the no turn on red permitted. Scott will contact Mathew to get all the information so if council desires to have this put in place it's ready to go.

2. Review Equipment logs (travel)

No questions asked.

3. Bridge Review (South Main Street)

The committee had a long discussion on the barriers on this bridge and how it may be resolved. Scott is to have Greg Rogalski from Pennoni's to take a look at it and try to come up with a fix. And try to keep it as low budget as possible. Scott is also going to place this on the Hazard Mitigation List.

4. Correct Issue on Cassel Street (11 & 15 to Lincoln Street)

The committee asked Scott to get a cost on this from our engineer and to try and coordinate this work with the rest of town since the equipment is already here and would not cost us move in fees.

5. New Truck is in inspection and should be ready next week.

Scott reported that the truck should be ready sometime next week and that he was working on finalizing the lease and paper work for the purchase.

6. Dumping Over the Guard Rail and Rock Wall

Dave reported that some people seem to be throwing lawn debris and other items over the guard rail and rock wall off of Cassel Street. The committee asked to have no dumping signs place along that area to stop the dumping. Scott is to have the maintenance crew take care of this issue.
