

Marysville Borough Streets Committee
May 8, 2013
2:30PM
Minutes

Chair: Allen Metzger Members: Dave Magee, Lance Barthel

Maintenance Men: Robert Laman, Ken Miller

1. Spread Sheet of Equipment

Scott asked Allen to email the list that he has already started so he can put it into our system.

2. Review Equipment logs (travel)

The committee review the logs with no issues found.

3. Bridge Review (South Main Street)

The committee ask Greg and Scott to please take a look at the bridge and report back what they find to try to make the bridge safer. Replacement of the side barriers or whatever can be done to improve this bridge without doing a total replacement.

4. Correct Issue on Cassel Street (11 & 15 to Lincoln Street)

The committee had a lengthy discussion on this section and what we would have to do to improve the rock wall if we are milling, so it doesn't fall down. Also the entrance from 11&15 has sidewalks so they would have to be replacing with ADA ramps. The committee asked to place this line item on the work shop agenda.

5. Garage Door Push Down Bumper Springs

The committee approved to get this completed so to one of them already broke and it is a safety issue. It's also under the \$500 limit for council approval.

6. COG Auction – July 17th

At first thought was to place the cub cadet tractor out for this auction but said it might be best to advertise and bid it out on our own. The committee asked to place this on the work shop agenda.

7. ADA Ramp Center Part of Town

The committee strongly approves this move to get the town into compliance. Approved to place on council agenda for approval.

Next Meeting Wednesday June 5th, 2013
