

**Finance Committee Minutes**  
**April 6, 2016**  
**4:30 PM**

**Chair: Dave Magee    Members: Allie Snyder, Larry Little**

**Treasure: John Tennant**  
**Administrative Assistant: Kim Charles**

**1. Skid Steer and Attachments**

Scott handed out the sec's and attachments for a Bobcat Skid Steer. Scott also told the committee that East Penn had all the manufactures of Skid Steer at their location today and that the maintenance crew and Scott were able to run them all and determine the overall best machine. Dave said the skid steer would have to have a snow blower attachment. Scott stated that every manufacture had this attachment.

**2. Sewer Separation (Engineering and Project for 2017,2018)**

Some discussion on financing the projects and that we still should move forward with starting this process.

**3. Advertise to Sell 2008 Patrol Car**

The committee after much debate approved to place this line item on the work shop and council agenda for discussion and action.

**4. Pole Building/Vehicle Storage**

After a lengthy discussion about size of a building and the placement of the building, the committee wants Scott to do some research.

**5. Trip To CNG in Williamsport**

Dave stated that he has a voluntary driver for a bus and to contact Rhorer Bus to see if what a rental would be or if they would donate a bus for the day. The committee's idea is to take at least one representative from the state and federal law makers to visit the sight and any council person that might want to go. Scott will contact Rhorer Bus.

**6. 2016 Budget**

The committee will review the packet and if any questions will bring those up at the council meeting.

**Next meeting Wednesday, May 4, 2016**
