2014 Dump rechassis replacement in 2020

1. Ridgeview Drive and Park Drive Project

Greg Rogalski our engineer opened the meeting with the engineering plans for this streets project. Greg explained what was on the list for the construction cost and what would need to be completed. Much discussion by all the committee members and what part of the project should be completed first since the cost of the project is higher than expected. The committee would like to move forward in 2018 with the Park Drive section of the project and complete Ridgeview Drive in 2019. This came after Greg thought the project on Park Drive would take six months to complete. The committee approved to take this to the finance committee for financing.

2. Mill Avenue Parking Area

Mill Avenue, Funk and Beers Avenue are all going to be options for bid on the streets project above.

3. Bridge Inspection (no report)

Scott reported he completed the paper work to get the report.

4. Public Comment

Alan Rachau from 130 Ridgeview Drive was here to complain about the no parking on the south side of Ridgeview Drive. Mr. Rachau was very emotional about this issue. He would like this ordinance reversed and wants it done now.

Next Meeting Monday, May 1, 2017
