

Marysville Borough Streets Committee
May 2, 2016
5:00PM
Minutes

Chair: Lance Barthel Members: Dave Magee, Allen Metzger

Maintenance Men: Robert Laman, Ken Miller

**1. Planning for Paving/Reconstructing Two Streets
(Park Drive, Ridgeview Drive)**

Greg Rogalski our borough engineer reported out on the preliminary finding of the bore testing. The committee hashed this around on what repairs will be needed and the amount of funding require. Greg said he should have the entire report ready within two weeks, so we will have it for next month's committee meeting.

2. Add Ridgeview Drive Connection of Streets

This line item was discussed together with line item #1.

3. Pole Building

Scott presented a hand out with one quote (General Steel) and this would be completely finished. The quote was for \$79,457.00, the committee thought this to be a little high. Scott reported that he has calls into six other pole building companies to get quotes. He will report back at next months meeting.

4. Roger Barrick's Agreement Search

Scott reported that after much research and some discussion with past planning commission members there isn't any written agreement to be found.

5. Detour thoughts

Some discussion about the speed bumps and some of the signage from Penn-DOT. Also still having people stop in the no parking area's to unload or load whatever and that is backing up traffic. The committee believes the Mayor and police should be on top of this issue. With only one police officer on duty it's never going to be covered well.

Next Meeting Monday, June 6, 2016
