

**Marysville Borough Streets Committee**  
**June 6, 2016**  
**5:00PM**  
**Agenda**

**Chair: Lance Barthel Members: Dave Magee, Allen Metzger**

**Maintenance Men: Robert Laman, Ken Miller**

**1. Engineering Results for Paving/Reconstructing Two Streets  
(Park Drive, Ridgeview Drive)**

Greg Rogalski our engineer reported on the results of the boring test and the layout of the project. Because of the high dollar amount, Greg broke down the project into five areas and presented a color coded map to correlate with the cost sheet. The committee then went into a long discussion on how to pay for the project, what sections should be completed first if we could not afford to do the entire project. Scott will attend the next Lions Club meeting to explain the cost of the curb that they would be responsible for the installation. Dave said he would do his best to find the money to complete the entire project.

**2. Daniel B. Krieg, Inc (Parking lot crack seal and tar)**

The committee had a long discussion about this line item. Some committee members wanted to expand the area to see if we could get a better price. The committee approved to forward this line item to the finance committee and then onto the council agenda.

**3. Speed Bumps and Sign Removal**

Scott reported that the speed bumps and sign removal will happen the day of or the day after the 11&15 project is complete. Scott also reported on the traffic volume prior and during the road closure. Prior to closing the count was 1,661 per day and during the road closure it's now at 7,900 per day. The roads are taking a beating and will need some repairs.

**4. Roller (state sale)**

After some discussion the committee told Scott to use his best judgement.

**Next Meeting Monday, July 5, 2016**
